Independent professional

As of June 2013 I work as an independent professional in the field of business & financial control and mergers & acquisitions. In the meantime I have had assignments for more than twenty small and big companies.

Core competences

My core competences are on the domain of creating structure through analyzing and improving business and financial processes. I work out the proposed solutions together with the staff members of the client. Therefore the ultimate selected solutions will permanently improve the control structure of the concerning company and deliver a good return on investment.
